

DON'T HOLD BACK YOUR BIG IDEAS

TIMed BRINGS YOU AN EXCLUSIVE TECHNOLOGY BUSINESS INCUBATOR

Innovative technology-led start-ups, enterprises in medical devices, new solutions in the biomaterials sector – we are the only Technology Business Incubator (TBI) of its kind in India to encourage and support every big idea in med-tech.

TIMed is promoted by Sree Chitra Tirunal Institute for Medical Sciences and Technology (SCTIMST), and supported by Kerala State Industrial Development Corporation (Govt. of Kerala) and Department of Science and Technology (Govt. of India).

We will help translate your med-tech dreams to reality and make it globally successful.

Medical devices and biomaterials is a sunrise industry in India and a recession-free industry globally. With numerous unmet clinical needs that require innovative solutions and a pressing need to develop affordable devices, now is the ideal time for you to engage in this sector. There are ample opportunities to innovate in the area of medical devices which include disposables, external prosthetic devices, temporary and permanent implants, diagnostics, therapeutic, surgical instruments and so much more.

SCTIMST-TIMed, 5th Floor, M S Valiathan Medical Devices Block,
BMT Wing, Satelmond Palace Campus, Poojapura, Trivandrum,
Kerala, India, Ph: +91 471 2520308 / 309

CATALYSE NEW IDEAS IN MED-TECH

FIND AN UNFAILING SUPPORT SYSTEM

You could be anyone: student innovator, faculty, clinician, surgeon, engineer or entrepreneur with:

- An innovative, creative, technical solution for an unmet clinical need
- The know-how, IPR and strategy for producing affordable medical devices
- A commitment to developing safe, reliable and good quality medical devices
- An ability to invest, raise funds, convince investors and form teams
- Unlimited enthusiasm and passion

You could even have a small medium enterprise (SME) or a start-up located anywhere in the globe with plans to Make in India.

Commercialising med-tech can be very challenging and too complex to be achieved individually. You may require an entire multidisciplinary support system to succeed. This is what you will find at TIMed.

GET MORE ROOM FOR YOUR IDEAS

Shared laboratory space, office space and necessary common services on rental basis within the Biomedical Technology wing of SCTIMST will give you the opportunity to incubate in one of the most vibrant med-tech campuses in the country.

Lower your investment risks by hiring the much needed clean room facility and sterilization facility for pilot production and clinical trials. You will also get access to some of the most sophisticated analytical, material characterization facilities alongwith precision fabrication facility, laboratories for preclinical evaluation, large animal surgical theatre, and accredited test services at SCTIMST.

ACCESS THE BEST OF OPPORTUNITIES

- Strong mentorship in domain-specific areas including testing, design, regulatory issues, GMP, quality management, IPR, technology assessment, clinical evaluation, market assessment, market entry, branding etc.
- Mentoring by well-experienced scientists, engineers and doctors from SCTIMST and external business and technical mentors.
- Opportunity to connect to vendors and supply chain, and to the national and international network of SCTIMST.
- Option to access the library for standards and patent databases.

OPEN YOUR IDEAS TO THE WORLD

We will organise events like med-tech conclaves and industry meets to showcase our start-ups and provide a launch pad to our incubatees. You will get timely information about funding opportunities from government agencies and explore seed funding from KFC, KSIDC, DBT (BIRAC), DeitY etc. As a TBI recognised by Govt. of India, you will also enjoy service tax exemption. Enjoy lower-risks and maximum benefits for your innovations in medical technology as an incubatee at TIMed.

STEP INTO TIMed TO REVOLUTIONIZE MED-TECH

Talk to us about your dream venture.

If you have a business plan ready, send it to us. Or send us a brief write-up of your plans through our website. We will review it and invite you for a presentation. If it meets our selection criteria and if you can demonstrate your need for incubation at TIMed, you will qualify as an incubatee at TIMed.

The incubation facility will be available up to 3 years. You can exit from TIMed to migrate to the upcoming KSIDC Life Sciences Park at Trivandrum or other suitable locations for commercial operations.

WORK WITH SCTIMST - THE BEST OF HOSTS

Sree Chitra Tirunal Institute for Medical Sciences and Technology (SCTIMST), a national Institute established by an act of Indian Parliament, is a one-of-its-kind institution combining a biomedical technology wing, a tertiary hospital and a school of public health.

Being a University, SCTIMST has a talent pool of students pursuing research and specialised courses in medicine, clinical engineering and public health. It has successfully developed and commercialised several medical device technologies, catalysing the growth of medical device industry in India.

Products transferred to industry include Mechanical Heart Valve, Blood Bags, Blood Oxygenators, Hydrocephalus Shunt, Dental Composite Materials, Bioceramics etc.
